

## **Engineering Support Associate**

Leading architectural products manufacturer of architectural daylighting systems and outdoor structures is seeking qualified persons to join our growing engineering department. We're growing aggressively and will hire an Engineering Support Associate, a proactive self-starter with initiative who works well in a team environment. The associate must be able to take direction, yet self-disciplined enough to work unsupervised at times.

These are the technical skills we require:

- Proficiency in Blueprints, AutoCAD, SolidWorks, Windows OS
- Ability to organize and store data effectively with repetition
- Familiarity with electronic file structure and creation in a network environment

These are the additional skills we want:

- Ability to communicate effectively, both oral and written
- Proven organizational ability
- Architectural experience/knowledge a plus

The pay is competitive, the benefits excellent and the future bright.
