

BIKE SHELTERS & PARKING
OPEN AIR | SECURED | BIKE CAGES

SPACES IN HARMONY

Duo-Gard is committed to change the way we think about bike parking and infrastructure. Bike parking is highly visible and a reflection of your commitment to a greener environment. Designated parking is more orderly for buildings, prevents damage to trees and street furniture, and prevents bikes from blocking walkways. Our products serve to encourage alternative transportation while enhancing the appearance of your grounds and your image, while providing a solution ideal for the biking population. Duo-Gard's core purpose is to inspire and enable sustainable communities.

THE DUO-GARD ADVANTAGE

We continually seek education - new products, commuter & industry trends, bike parking guidelines - anything that relates to your planning. We then apply our knowledge to help you execute your project. We can assist in project design & planning, space planning, specifications, project pricing, fabrication and installation in all 50 states.

Duo-Gard Bike Racks & Shelters

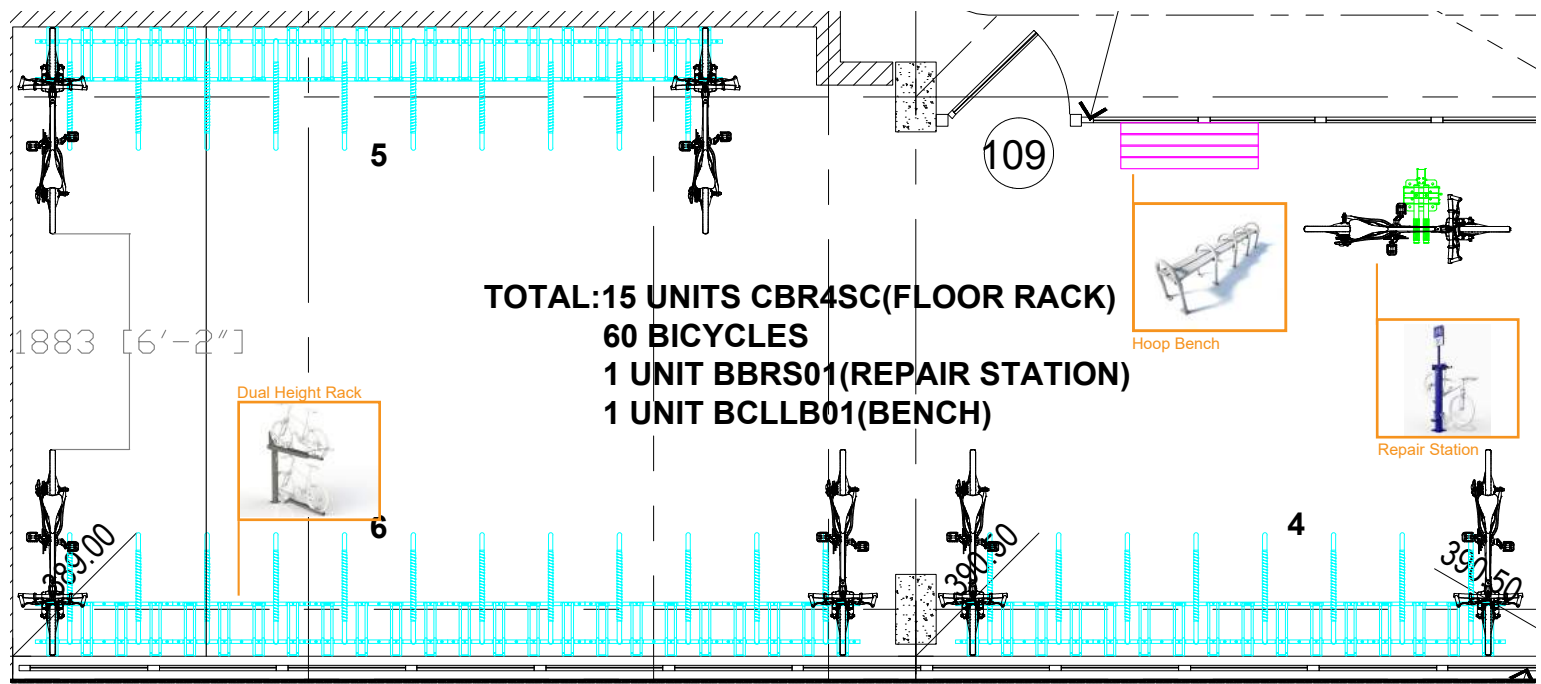

COMPLIMENTARY SPACE PLANNING

Space is at a premium. As demand for bike parking grows, it's vital to plan expertly and efficiently. We consider your requirements and apply our knowledge to develop parking layouts, determine capacities and suggest products that make sense. Our recommendations are based on **APBP** guidelines and best practices around the world.

apbp ASSOCIATION OF PEDESTRIAN
& BICYCLE PROFESSIONALS
Expertise for Active Transportation

EFFICIENT, INTELLIGENT, ECONOMICAL.

We provide a bike parking layout, determine capacities and draw from our wide array of product solutions to make recommendations that make sense based on **APBP** guidelines, **LEED** strategies and proven best practices.

Duo-Gard understands our clients' challenges. We continually develop innovations and solutions, while simultaneously finding ways to create an outstanding result.

It is important to be sensitive to changing needs while enabling outcomes that are quality, cost-effective and endure the test of time.

BENEFITS:

- We provide professional CAD drawings to add right to your plans
- Duo-Gard has decades of experience and a proven track record of success
- Save time by allowing us to provide proven solutions, specifications and viable options
- Bike parking capacity & density planning expertise

TEAM WITH AN INDUSTRY LEADER

Since 1984 Duo-Gard has pushed the boundaries in shelter design and versatility. We design, engineer, manufacture and install. Our state of the art shelters are offered open, partial or fully enclosed. We offer over 250 bike parking products. Making us the comprehensive solution for your bike parking and infrastructure needs.

STANDARD OR CUSTOM

We investigate, evaluate and integrate technologies and innovations to ensure the very best for our customers, partners and the environment. We've applied our knowledge and experience to develop a variety of standard models including architecturally designed shelters. If you'd like to go in a different direction, we're happy to collaborate with you to create any conceivable size, shape and look you desire.

STANDARD FEATURES

- 17 standard models
- Wide variety of designs
- Integrated bike racks on select models
- Designed to address specific bike parking needs
- Pre-engineered
- Constructed with readily available, standard materials
- In-house aluminum & steel fabrication
- Cost effective

DUO-GARD'S STANDARD BIKE SHELTERS

DUO-GARD'S STANDARD BIKE SHELTERS

DUO-GARD'S STANDARD BIKE SHELTERS

COVERED & SECURED SHELTERS

Duo-Gard provides 17 pre-engineered standard bike shelter styles featuring a variety of open-air and fully secured options. The sizes we offer are designed to maximize bike parking capacities based on best practices for effective bicycle parking and usage. We are the leading provider of custom bike shelters in North America and pride ourselves in our customization abilities and willingness to collaborate with our partners to reach their intended vision.

Our bike shelter offerings are available with roofs utilizing standing seam metal or a variety of polycarbonate options for completely opaque and translucent options. Standard wall material options are polycarbonate, safety glass, aluminum perforated metal, steel or stainless steel mesh. Our electrical wiring packages include LED Lighting, solar lighting, USB chargers, heaters, motion sensors, custom door entry options and more. We are also capable of providing customized wall or roof material choices if preferred by our customers.

DUO-GARD CUSTOM BIKE SHELTERS

CUSTOM FEATURES

We understand that you might envision something different than one of our standard models and we have over 35 years of experience developing designs to meet your specific project requirements.

Our ability to design, engineer and manufacture the structure, using either aluminum or steel, gives us the flexibility to manufacture exactly what you want at a reasonable price. Duo-Gard is an AISC certified fabricator.

DUO-GARD BIKE REPAIR STATIONS

Duo-Gard has a range of bike repair and pump stations that are suitable for end-of-journey facilities, bicycle paths or any location where cyclists gather. They are designed to allow cyclists to position their bicycles conveniently above ground to carry out routine maintenance and repairs. All of these bicycle repair stations can be fitted with the optional tool package, tool baskets, and Bike Repair Station signage.

Features:

- Integral foot operated pump
- Public stations with superior security
- Indoor private stations
- Surface mounted design
- Powder coat and galvanized finish options
- Cost effective solution
- Variety of options to fit project needs

DUO-GARD BIKE LOCKERS

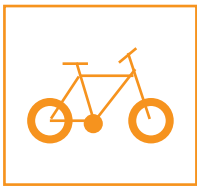

Fully enclosed galvanized outdoor steel bike lockers provide the highest level of security (Class 1). While they are the most popular secure parking for cyclists, they are the most expensive bike parking option.

Available in:

- Horizontal single and double
- Vertical single

Hanging locker hooks and locking options available.

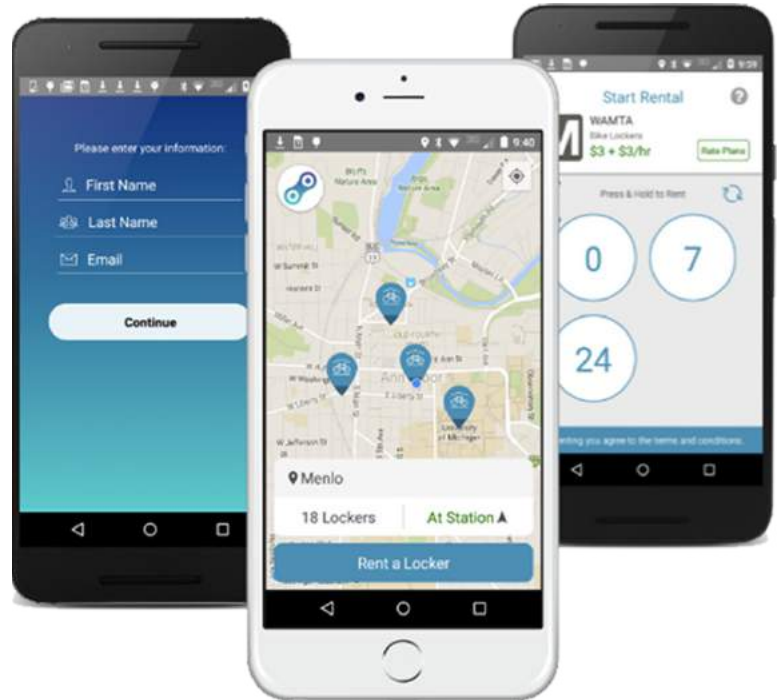

SECURA-GARD MOBILE APP

Powered by 

Duo-Gard's Secura-Gard mobile app is the ultimate secured access bicycle management system for property managers, commercial property owners & municipalities. Our Secura-Gard System manages everything from program setup and management to maintenance & collection fees.

- Manage all bike parking facilities from one easy to use app
- Scalable to unlimited bike parking sites, indoor and/or outdoor
- Real time monitoring of bike parking activity and usage
- Simple to manage bike parking sites from User Dashboard
- User-friendly set up and accessibility for the biker
